

WORKSHOP

COLABORATIVE ANALYTICS FOR SAFER COMMUNITIES

The objective of the workshop is to provide a platform to share knowledge and discuss emerging data analytics tools that will help criminal justice organizations to increase efficiency in decision-making and prevention/treatment strategies. Participation will include a number of stakeholders including University faculty, experts from organizations responsible for community safety and students interested in analytical criminology.

2 DAY WORKSHOP • MAY 11 - MAY 12, 2017

8 am – 5:30 p.m.

Capilano University

2055 Purcell Way, North Vancouver, BC
